A SENSATIONAL STORY.

Cubans Organizing a Fleet on Our Southern Coast.

TO DEPART WITHIN THIRTY DAYS.

Revolutionary Leaders Claim to Have Reason for Encouragement in the Battle for Cuban Independence, and Are Said to be Making Extensive Preparations.

FERNANDINA, Fla., June 7.—The master stroke of the Cuban revolutionary movement in this country will occur within thirty days. The principal leaders of this party in the United States gathered at Jacksonville two days ago, but on Thursday afternoon quietly slipped over here, took carriages and went to Ocean Beach, where they stopped at the Strathmore hotel. From an adjoining room a newspaper correspondent overheard the whole of the deliberations, which began at 8 p. m. and lasted until a late hour.

The six men who composed this revolutionary board were Carlos M. Decespedas, Gonzale de Quesade, Colonel Enrique Collazo, Lieutenant Tomas Collazo and two prominent citizens of Fernandina, who have appeared conspicuously before the public on former occasions in connection with the Cuban cause. The party gathered around a large table on which were spread numerous charts of Cuba, the adjacent territory and the United States coast line from Charleston, S. C., to a point far down the peninsula of Florida.

As appeared from the conversation, most of the expeditions hitherto had gone from Santo Domingo, but the board decided that the next big effort must be from the United States coast south of Charleston, not only because of the necessary character and strength of the expedition, but because of innumerable bays, sounds and rivers in which a fleet could with care hide or repel a much stronger force.

A fleet of light draught could go unnoticed through Bahama channels, and at night make short runs for the northern coast of Cuba, where there are many bays easy of access for an expedition, and poorly guarded. Such an expedition was recently conducted by the yacht Corona, which sailed from Satilla river, Ga., a few weeks ago and made a landing in a bay near Gibara. All this was preliminary. Then came plans, and so far as completed at that sitting they were as follows:

The eastern half of the island had risen, the western half was ripe for rebellion and the Spanish opposition was growing weaker, owing to the terrific ravages of yellow fever and to diseases from bad food supplied the Spanish army. There now had come the time for a tremendous effort which should carry a great expedition from the United States to Cuba. The consulting board decided that the expedition should be made ready at once, that it should sail from some point between Brunswick, Ga., and Mayport, Fla.; that it should be commanded by Colonel Enrique Collazo, the war scarred veteran of 1868 and 1878, and that the fleet should be guarded by three newly built torpedo boats of the latest pattern and of great speed, and manned by experienced seamen.

Lieutenant Tomas Collazo is to be the staff officer, and Colonel Collazo's small army is to be recruited from the Cubans in the United States and picked up Americans from the southern states last mentioned. Men already collected by Henry Brooks, who is now in New York, and who is to accompany the expedition as a member of Collazo's staff, are also to be enrolled.

Collazo is to land the expedition at some point in the province of Puerto Principe, where forces collected by Gomez and Marti will co-operate. The expedition is to land in Cuba within thirty days. It is believed that within a month the whole island will be in arms for the Cuban cause, and is asserted, moreover, that Jose Marti will be in Florida within the next ten days.

Spain May Demand Indemnity.

LONDON, June 7.—The Standard contains an intimation to the effect that when the insurrection in Cuba is ended Spain will request the United States to pay part of the costs of suppressing it, adding: "There is small pretense of concealment upon the part of those going to Cuba from the United States, and the authorities must be cognizant of it. The country which claimed and obtained damages from England on account of assistance given to the south by armed vessels which were allowed to leave this country should be the last to allow armed men to leave her shores to fight against Spain."

To Increase Captain Beck's Force.

WASHINGTON, June 7.—The interior department has granted fifty additional Indian police to Captain Beck, U. S. A., acting Indian agent at the Osage and Winnebago reservation in Nebraska, and has requested the war department to furnish the necessary arms and ammunition to equip them. The increase is to enable Captain Beck to evict the illegal settlers on the reservation who claim title under the Fleurnay land company and is in line with a recent suggestion of the war department.

Three Killed in a Freight Wreck.

TAMAQUA, Pa., June 7.—By a wreck which occurred yesterday on the Mahanoy division of the Philadelphia and Reading railroad at Locustdale Engineer Ellwood Moyer, aged 40 years, Conductor Oliver Botts, aged 45 years, and Fireman William Klees, aged 26, all of this place, lost their lives. The wreck occurred on a steep grade, Engineer Moyer being unable to control his freight train of forty loaded cars, and it crashed into a freight car ahead.

THE NEW JERSEY REFORMS.

Both Houses Promptly Pass the Investigating Committee's Bills.

TRENTON, June 7.—Both branches of the New Jersey legislature adjourned yesterday until next Monday night. Prior to doing this they passed finally a number of bills, most of which had been recommended for passage by the senate investigation committee. They also passed a concurrent resolution which modifies that passed in March, and which provided for the recess which ended a few days ago.

Among the most important of the measures passed was one which gives the mayor of New Brunswick a vote in common council, where a deadlock is in existence, and another giving the mayor of Newark the power to fill vacancies in common council.

A list of bills which came from the senate investigating committee, and which had already passed the senate, were concurred in by the house, all in the interest of economical expenditure.

There were also passed a series of bills providing that the expenses of the Deaf Mute school and other institutions, now paid out of the state school fund, shall hereafter be paid out of the general fund.

The house adopted a resolution instructing the speaker to certify as having been passed an engrossed copy of the bill compelling corporations, other than railways, to pay their employes semi-monthly. This bill, which was one sent back by the governor because of certain omissions, will be again returned to him, and it is said will receive his signature.

It has been determined to hold a caucus of Republican members next Monday night to take action in the case of State Secretary Kelsey, who was so severely criticized in the investigating committee's report.

The Nation's Wealth Producers.

WASHINGTON, June 7.—The occupations of all people in the United States above 10 years of age are reviewed in detail in a census bulletin just issued. The total working population in 1890 was 22,735,661, or almost 43 per cent. of the whole number of persons 10 years old or over. Of these 18,820,950 were males and 3,914,711 females. The numerical increase in persons engaged in "gainful occupations" since 1880 is shown to be 5,343,562, the increase in males at work being 4,076,008 and females 1,267,554. Professional men and women have increased almost 57 per cent. in number, and those classified as in domestic and personal service over 24 per cent. In both of these classes the percentage of increase for females is largely in excess of that for males.

Furnace Men to Strike.

YOUNGSTOWN, O., June 7.—Indications are that before the end of a week a general strike will be inaugurated by all the furnace employes throughout the Mahoning valley for an advance in the present scale of wages.

Another Voluntary Increase in Wages.

BETHLEHEM, Pa., June 7.—The Lehigh Zinc works, one of the oldest concerns of the kind in the country, notified 300 workmen of an increase of 10 per cent. in wages, to take effect on the 16th inst.

Exploding Boiler Kills Six.

NIMES, France, June 7.—The explosion of a boiler at the Lavernaredo mine killed six persons and seriously injured three others.

Attempt to Wreck a Train.

NORFOLK, Va., June 7.—The Ocean-view train, which leaves Norfolk at 7:30 o'clock with a large number of laborers employed on improvements at the beach, as well as many passengers for the hotels and club houses, ran into a tie that had been placed on the track where it was buried by two deep ditches. Fortunately the engineer discovered the obstruction in time to prevent other damage than his engine leaving the rails. A negro was seen running from a hiding place near by, and a large reward has been offered for his capture and conviction. The object of the attempt to wreck the train is believed to have been robbery.

Ecuadorean Revolutionists Successful.

PANAMA, June 7.—Guayaquil has fallen into the hands of the revolutionists, and the rebels have proclaimed General Ignacio their civil and military chief. Such is the nature of a dispatch just received by Ecuadorean exiles here, who are jubilant over the success of the insurgent cause. With Guayaquil in the hands of the revolutionary party the rest of the republic will soon be compelled to submit. Nothing has been heard as yet of the tyrant Flores. He is supposed to have fled the country.

The Sultan's Reply to the Powers.

LONDON, June 7.—In his reply to the protest of the powers Turkey's sultan declares that no changes are necessary except such as modify existing laws, and as these alterations would be applicable to the whole population he denies the right of the powers to interfere in the internal administration of the affairs of the empire, while no indication has been given which appears to show that the condition of Armenia is to be regarded in any way as exceptional.

O'Brien Forced from Parliament.

LONDON, June 7.—William O'Brien has issued a farewell address to the electors of Cork City, for which parliamentary district he sits in the house of commons as senior member. In his address he says that he will definitely cease to represent Cork City after June 12. Mr. O'Brien's retirement is due to the fact that on June 12 he will be judicially declared a bankrupt, which declaration will vacate his seat in parliament.

A Boy Threatened with Lynching.

COTTONWOOD FALLS, Kan., June 7.—Gus Howard, the 17-year-old son of A. S. Howard, president of the Chase County National bank, made a brutal assault on two young girls, Nellie Buffington and Jennie Hinole, in a berry patch. The last named escaped after a desperate struggle, but the first is dangerously injured. Young has been admitted to bail, and this has so excited the people that a lynching may occur.

THE COMING WOMAN.

An Episcopal Bishop's Denunciation of Woman Suffrage.

WOULD BE A NATIONAL INFLICTION

According to Bishop Doane "Mannishness Would Replace Motherhood and Neglected Homes Furnish Candidates for Office."

ALBANY, June 7.—The Right Rev. William Crosswell Doane, Episcopal bishop of Albany, presided at the closing exercises of St. Agnes' school here yesterday. The institution is maintained in connection with the Episcopal cathedral for the education of young women, and has many pupils from other states. Bishop Doane is one of the most prominent anti-women's rights men in the country, and he evidently believes in carrying the opposition to the "coming woman" into the school room. His address to the graduating class was of much interest in this connection. He said:

"One gets sick and tired of the way in which the talk of woman's vocation fills the air, not merely in the wild vagaries of its blatant assumptions, but in the parade and push of its claims for recognition of what are called 'its rights.' I have had occasion to say what wrong to womanhood those women's rights would be, and I have no desire to recall a word. I believe that God will yet save this state and nation from the aggravated miseries of an enlarged, unqualified suffrage, which, in its university of male voters, is our most threatening danger today.

"But if we are to be visited with this infliction, as a well earned punishment for many national sins, then I believe that, when we have tasted its bitterness, we shall be brought back, perhaps through anarchy and revolution, to a democracy which shall demand for its existence government by men whom education and actual Americanism of final interest in the nation qualify to govern.

"Meanwhile when constitutions shall have been altered to disturb the equipoise of the relation between man and woman; when motherhood shall be replaced by mannishness; when neglected homes shall furnish candidates for mismanaged offices; when money shall buy the votes of women, as it does now themselves; when the fires of political discord shall be lighted on the hearthstone of domestic peace; when the assertion of demanded right shall have destroyed the instinctive chivalry of the conceded courtesies; when 'woman,' as has been well said, 'only the superior,' has become the equal of man, then the reaped whirlwind of some violent political reaction will be gathered 'in tears' by those who are sowing the wind, in the mad 'joy' of the petroleuse of the French revolutions.

"Never in any age, nowhere in any land, and nowhere in America, so much as now in our own Empire state, was there such absolute unreason for the clamor which seeks to distract women from the duties of 'the vocation to which they are called,' in the mad pursuit of the greatest wrong that can be done to their sex, their country and mankind. The man who is set in public place today, to train some of the women of America for their vocation, may not, in times like these, withhold his voice of warning against the dangers and delusions of the hour."

Fatal Cloudburst in Wurtemberg.

STUTTGART, June 7.—The Black Forest district of Wurtemberg was deluged by a cloudburst during the night, inundating a vast tract of territory. The volume of falling water caused the River Eyach to overflow, and a hundred or more houses in the village along the river bank were swept away. Ten persons are known to have been drowned in Balingen, seven in Frommern, fifteen in Laufen, and several in other villages. Besides these many others are missing.

The Whitehead Jury Disagrees.

NEW YORK, June 7.—The jury in the case of Dr. E. Newton Whitehead, who has been on trial in the court of general sessions for a week past on the charge of having performed a criminal operation upon Agnes Barthold, after being locked up twenty-three hours, were unable to agree, and were discharged by Judge Allison. They stood ten to two for conviction. Dr. Whitehead was released on $5,000 bail.

Rhode Island Strikers Weakening.

PAWTUCKET, R. I., June 7.—The backbone of the strike which has been in progress several weeks at the Farwell woolen mills, at Central Falls, is broken without doubt. Wednesday evening the strikers met, and after considerable talk adjourned for two weeks. Yesterday some of those who have been actively agitating, and who assumed the leadership of the strike, returned to work in the mills.

Smith Accepts Ryan's Challenge.

SYRACUSE, N. Y., June 7.—Tommy Ryan, who is at present in this city, has received a dispatch from "Mysterious" Billy Smith agreeing to fight to a finish, the winner to take all the purse. The two men will meet in Boston or New York within a few days to close the negotiations. It is proposed to hold the fight at the same time and place as the Corbett-Fitzsimmons go.

The Sheep Owners Weaken.

CHEYENNE, Wyo., June 7.—It is reported here that the sheep owners whose flocks have given so much uneasiness to the cattlemen of northwestern Colorado have concluded not to tempt fate by driving south in Colorado to the Rio Grande railway. If this is true, it is probable that the threatened battle will be averted.

New Jersey's First Woman Lawyer.

TRENTON, June 7.—Miss Mary Philbrook, of Hoboken, passed a written and oral examination for admission to the bar yesterday, and received her sheepskin. She is the first woman lawyer in New Jersey.

A STATE TREASURY LOOTED.

New Hampshire Made $5,000 Poorer by the Work of Professionals.

CONCORD, N. H., June 7.—The vault of the state treasury was robbed of cash and securities amounting, according to Treasurer Carter's latest estimate, to $5,429.66 some time between Saturday and Tuesday night. The robbery is believed to have been done by two strangers, who were seen about the building Saturday. In some way, as yet unexplained, they secured the key to the vault and a knowledge of the working of the lock.

Last Saturday morning, while Deputy Treasurer Gerrish and a state official were in the treasurer's office, a stranger entered and requested a $50 bill in exchange for small bills. He stood where he could get a good view of the vault. The bill was given to him. At noon the treasury was closed, and Treasurer Carter and his deputy went to dinner. When Deputy Gerrish returned at 2 o'clock he found a man waiting outside who wanted a $20 bill changed. The man said that he could not get accommodated elsewhere, as most of the stores were closed. The two men entered the treasury together, and the deputy accommodated the stranger.

That night Mr. Gerrish received news of his mother's death in Vermont, and the theft was not discovered until Tuesday night. The robbers left untouched bonds and mortgages worth nearly $10,000, and two state bonds upon which the cancellation marks were very indistinct. The deftness with which the robbery was committed indicates that it was the work of professionals.

OXFORD-CAMBRIDGE CHALLENGE

Doubtful If Harvard Will Meet the Britishers, but Yale Is Willing.

CAMBRIDGE, Mass., June 7.—As far as could be learned this morning no one at Harvard has received the challenge from Oxford and Cambridge for an international meeting in this country next September. Although Captain Bingham, of the Harvard track team, is absent, it is thought more than probable that had he received the challenge he would have at once forwarded it to Professor Ames, chairman of the Harvard athletic committee. Several Harvard athletes who were seen do not regard a proposed international meeting with much favor, not only because September is a very unfavorable month and a meeting then would mean hard training in the hottest weather, but in view of the football controversy with Yale it is doubted if the athletic committee will sanction any co-operation with Yale for such a meeting. The general verdict on the campus was that the challenge will not be accepted by Harvard when it arrives.

NEW HAVEN, June 7.—At the Yale fence the only topic of conversation is the reported Oxford-Cambridge challenge. The officers of the athletic association have received no official communication as yet, but all express themselves as favorably disposed to accept should Harvard be willing and the terms satisfactory.

Ordered to Leave Georgia.

TUSKEGEE, Ala., June 7.—About twenty of the best citizens of this town gave one Rev. Mr. Kelly, a white man from Ohio, a "surprise party" by calling on him and informing him through their spokesman, Dr. W. J. Gautier, that his presence here was obnoxious and disgusting to the white people of Macon county, and that he must leave Tuskegee and Macon county on the first train or abide the consequences. Kelly has been holding a protracted meeting here in the negro church, and is teaching and practising social equality which will never be submitted to by the people of this section.

Deadly Poison in the Sausages.

CHICAGO, June 7.—The entire family of August H. Christensen, of Evanston, was poisoned yesterday. Seven members of the family and Sam Wright, a guest, partook of a dinner of Frankfurt sausages, and shortly after the conclusion of the meal all of them became deathly sick. A physician was hastily summoned, but when he arrived Herbert Christiansen, aged 4 years, and Della Christiansen, aged 5, were dying, and nothing could be done for them. All the others who had eaten of the sausages are in a critical condition.

Important Question of Citizenship.

TRENTON, June 7.—The supreme court in the contested election case of Benny versus O'Brien decided that children born in this country of parents domiciled here, whether such parents are naturalized or not, are citizens of the United States, excepting in the case of children of foreigners in the country in the diplomatic service. This reverses the decision of Justice Lippincott in the Hudson circuit, and gives Benny, who was born in this country of unnaturalized parents, his seat.

Russia May Gobble Chinese Territory.

LONDON, June 7.—The Standard in its financial article expresses an opinion that a portion of Manchuria will be ceded to Russia to compensate that country for the money just obtained by China as a loan.

THE COLIMA SURVIVORS.

Seventeen of the Fortunate Ones Landed at San Francisco.

THE TRUE CAUSE OF THE DISASTER.

All of the Rescued Passengers Agree That It Resulted from the Vessel Being Too Heavily Loaded on Deck—No Time to Launch the Lifeboats.

SAN FRANCISCO, June 7.—Seventeen of the survivors of the ill fated steamer Colima arrived in port yesterday on the San Juan. Hundreds of friends and relatives of those who went down on the Colima were assembled awaiting the landing of the passengers. Droves of women with tear stained faces and knots of anxious men asked every one on board for tidings of the lost, hoping against hope that there might have been some mistake in the dispatches and some name omitted among the saved. How keen was their disappointment in the face of the inevitable assurance that there was no hope was evinced in their bitter lamentations. On the spur deck of the steamer were a few happy people, whose pleasure contrasted sharply with the grief of the bereaved. These were the friends of the survivors, who were embraced and congratulated at their miraculous escape.

The Colima survivors who landed at this port are: Passengers—A. J. Sutherland, C. H. Cushing, J. M. Thornton, P. H. Boyd, Gustave Rowan, Bruno Caid, Jose Antonio Sliz, Jose E. Mariella; George D. Ross, Louis Sangene, A. J. Oiel, Juan A. Ramos. Crew—O. A. Hansen, R. A. Willes, Albert Carpenter, Arthur Richardson, Tom Fish. The following were landed at Mazatlan: Thomas Zarabos, Domingo Aliaban, Angel Guithez, Carlos Ruise.

The nineteen men saved from a watery grave when they had given up hope of rescue were a sorry looking party when they arrived at the main docks. Some had their arms in slings. The heads of others were swathed in bandages. They limped as they walked, and their bruises were plainly in evidence. All looked thin and weakly, and showed only too plainly the effects of the terrible strain during the fearful hours when they awaited succor.

The stories of the survivors all confirmed the telegraphic accounts of the disaster. They agree that the cause of the foundering was the top heavy condition of the Colima due to her bulky deck load. From the beginning of the voyage south, they say, the vessel acted badly and would not answer her helm. The storm which sunk her was encountered about 9 o'clock Monday night, May 27, and blew furiously during the next fourteen hours. The vessel lost steerage way and swung shoreward in the teeth of a furious southeasterly gale, when she lay helpless, battered by the mighty tidal waves.

The steamer lay helplessly on her side for about fifteen minutes, and then tipped over and sank. The women and children were grouped in the state rooms, where they were confined during the gale. Passengers who had been on deck were thrown into the sea. Many were killed and horribly mutilated by the lumber on the deck being blown by the wind and hurled on the heads of the struggling men in the water. The raft upon which Cushing, Richardson and two others were afloat drifted about twenty-four hours. They gave up all hope until the San Juan hove in sight. They attracted her attention by hoisting a piece of red cloth and waving their clothes.

On the raft with the passengers were two sailors. One seized a small cask of claret, of which both drank. They became drunk and quarrelsome. To save the lives of the rest on the raft the passengers say they were obliged to push one sailor, mad with drink, into the sea, where he drowned. The passengers say there was no time to launch the boats or put on life preservers when they realized the serious plight of the Colima, and besides, the fury of the storm made it impossible to launch or man the boats successfully. Those who secured life preservers got them in the water and those in the boat picked up by the San Juan clambered into her as she floated towards them struggling in the sea.

Thirty in All Were Saved.

SAN FRANCISCO, June 7.—A special from Mazatlan says: The Colima survivors found by steamer Mazatlan have arrived at Manzanillo. They consisted of two passengers, W. H. Bryan and N. O. Wens, and three of the crew, Joe Pegueros, Santa Angel Maria, and J. Aikman. These five are undoubtedly survivors of boat No. 5, and the last to hear from, making the total saved out of 204 to be thirty, as follows: Twenty-one by the San Juan, four at Acapulco, and five at Manzanillo.

Big Coal Firms Make Concessions.

PITTSBURG, June 7.—Two of the largest coal firms in the Pittsburg district have agreed to pay their employes a fifty-five cent rate, the pay to be semi-monthly, reduced house rents, and have no company stores. These are the terms of the New York and Cleveland Gas Coal company. The latter company held out all along against the district rate of sixty-nine cents, for which the miners struck. They based their action on the grounds that they paid cash and had no company stores.

Shot in Self Defense.

SAVANNAH, June 7.—Frank Keenan, a foreman of the local fire department, was shot and killed last night by Thomas Pounder, of the same company. Pounder was discharged on Wednesday, and accused Keenan of swearing falsely at the investigation which resulted in his dismissal. When they met Keenan assaulted Pounder and the shooting followed.

A Woman Burned to Death.

ALLENTOWN, Pa., June 7.—Mrs. Frederick Wilt was burned to death yesterday. She was carrying a lighted oil lamp downstairs when she was attacked with an epileptic fit and fell, her clothing becoming ignited. She was 50 years old.

PENNSYLVANIA LEGISLATURE.

The Bill Creating Quay County Passed by the House.

HARRISBURG, June 7.—Quay county is assured. The bill creating the new county passed finally yesterday in the house by a vote of 106 to 69. This was the most stubbornly contested battle of the session. The bill now goes to the governor. The bill creates the proposed county out of portions of Luzerne and Schuylkill counties.

A resolution was offered by Mr. Riter, of Philadelphia, for a committee of eight members of the house to Lexow the public schools. The resolution is similar to that offered in the senate by Mr. Kennedy, of Allegheny, and adopted. It was overwhelmingly defeated.

The house passed on second reading a bill granting pensions to enlisted men from Pennsylvania who were in the service of the United States in the war of the rebellion between April 14, 1861, and May 1, 1865, who are not pensioners nor applicable therefor under the United States statutes. The rate shall be a monthly allowance of one cent per day for each day's actual services. In adjudicating pension claims the auditor general shall require proof that the claimant is free from intemperate habits.

The house concurred in the senate amendment to the superior court bill, increasing the number of judges from five to seven.

The feature of the house night session was the slaughter of senate bills. Among the measures which went down by an overwhelming majority was one authorizing old soldiers to bring suit against any county, borough or township to recover any money he may be entitled to by reason of enlistment.

In the senate a number of appropriation bills passed finally.

At the afternoon session of the senate the judges' retirement bill passed second reading, and special order was fixed for its final consideration. Among house bills passed finally were: To give preference in appointment or employment to honorably discharged soldiers and sailors, and making a disregard thereof a misdemeanor; to authorize brewers to sell their products only on the payment into the state treasury of $1,000 annually.

At the night session the general revenue bill passed second reading and was recommitted to the finance committee. Mr. Kaufman, of Lancaster, offered a resolution, which was adopted, empowering the common school investigating committee to include in its inquiry the normal schools of Pennsylvania.

A BIRTHDAY.

My heart is like a singing bird
Whose nest is in a watered shoot;
My heart is like an apple tree
Whose boughs are bent with thickset fruit;
My heart is like a rainbow shell
That paddles in a haleyon sea;
My heart is gladder than all these
Because my love is come to me.

Raise me a dais of silk and down:
Hang it with vair and purple dyes;
Carve it in doves and pomegranates
And peacocks with a hundred eyes;
Work it in gold and silver grapes,
In leaves and silver fleurs-de-lis,
Because the birthday of my life
Is come; my love is come to me.

A CRIME TO LAUGH.

Queer Sunday Laws of 1781 That Still Govern England's Lord's Day.

The introduction of the Sunday bill by Lord Hobhouse brings up the fact that we are governed in respect to Sunday observations by an act of the year 1781.

It seems that a Sunday lecture can always be made the subject of prosecution. Some time ago a Sunday lecturer at Leeds was actually sacrilegious enough to make his audience laugh. The proprietor of the lecture hall was thereupon prosecuted for keeping a disorderly house.

Music can now be given in the open air on Sunday, but if it is given in a room nothing must be charged for chairs. In other words, it will be possible for any body of men and women to run Sunday concerts and Sunday lectures with the view of making them pay expenses, but not for their own profit.

In the years 1200 and 1201 one Eustace, abbot of Flaye, preached throughout England the observance of the Lord's day. He enjoined that no kind of work should be done after the ninth hour on Saturday until sunrise on Monday.

According to the manner of the times his preaching was backed up by miracles. At Beverly a carpenter persisting in finishing a wedge after the ninth hour fell down in paralysis. In the same town a woman went on with her weaving after the ninth hour. Result, paralysis, with loss of voice.

At Rafferton a man made a loaf and baked it on Saturday evening. When he broke it on Sunday morning, blood started from it. At Wakefield a miller, grinding after hours, ground out blood instead of flour.

In Lincolnshire a woman made a loaf and put it in the oven. It remained dough! In the same county a pious woman, finding it was the ninth hour, set aside her loaves. Lo! On Sunday morning the loaves were beautifully baked without any fire at all.

And yet, the chronicler adds, in spite of these miracles the people have returned to the holding of markets on the Sunday!—London Queen.

The Birds' Service to Men.

Before many years have passed the legislatures of our states and nation will be forced to some action on the needless destruction of birds. The robins and bluebirds and wrens and the hundreds of glad little singers of the woods and fields have been driven away not merely from the cities, which they used to inhabit, but from the villages on the outskirts, and in some cases from even the isolated hamlets. The increase in insect pests within two or three years betokens a grave danger, and the cheapest and surest way to meet it is to stop killing the birds and let them return and diné upon the moths and caterpillars and the rest of the evil tribe that strip our trees and gardens. It will take many years, at best, to restore them in such numbers as they could be reckoned by a dozen or 20 years ago, but people by ceasing to be sportsmen, or at least by ceasing to kill the birds that are of no use as food, can bring good times back. —Exchange.

The Ad. Brought the Cat Back.

SIR—I lost a valuable cat—lost, strayed or stolen. I advertised for it in a prominent newspaper, but didn't get the cat back. Then I tried The News. You told me, as you put the cash for the advertisement in your money drawer, that you had no doubt the cat would see the ad. in The News and come back of herself. Within 36 hours from the appearance of the advertisement the cat appeared at my window and scratched to come in. I am not prepared to say whether the cat saw the ad. herself and acted on it or whether some one found her, picked her up and dropped her in my yard after seeing the ad. At any rate the cat came back, and I feel grateful to The News.—Lester in Providence News.

SUSQUEHANNA AND WESTERN.

Rumors of a Receivership Cause a Sharp Decline in Its Stock.

Rumors of a receivership for the Susquehanna and Western railroad were current in Wall street, yesterday, and as a consequence there was a sharp decline in the prices of its common and preferred stock, the latter falling from 29¼ to 24¼.

President Borg said that there would be no receiver, that the floating debt is only $1,250,000 and that it can easily be attended to. The interest falling due July 1st, is only $93,000.

The stories concerning the road ascribe its troubles to the heavy expenditures incurred in building a tunnel through the Palisades. Changes were made recently in the directory of the company, and it was understood that the three new directors were to take care of the floating debt, but so far they have been unable to do so.

The total liabilities of the company, including common and preferred stock, terminal, Wilkesbarre and Eastern, old New Jersey Midland and general mortgagee, are $41,499,500.

SUDDEN DEATH WHILE FISHING.

A Young Man from Liberty Dies of Heart Disease on Stevensville Lake.

William Poelman, of Liberty, died suddenly, Tuesday, while fishing in Stevensville Lake. He went to the lake in company with his father and several friends and the afternoon was spent in fishing from boats. Shortly after 6 o'clock, as the party was preparing to start for home, young Poelman gasped and fell into the water, sinking immediately. The body was soon recovered. An autopsy showed that he was dead before reaching the water, for there was no water in his lungs. Poelman was sixteen years of age, and had of late suffered from heart disease, having lost thirty pounds in three weeks. Death was undoubtedly due to heart disease.

A Petrified Goose Egg.

From the Hancock Herald.

This spring carpenters have been engaged in repairing the buildings on Miss Ann Preston's estate at Stockport. Last week, while putting a new floor in one of the barns, which is over 100 years old, they found a goose egg. It was petrified and must have quietly reposed under the old barn floor for more than half a century, as one of the old inhabitants of Stockport says that to his knowledge there has not been a goose on the estate in fifty years.

FRIDAY, JUNE 7, 1895.

Lightning struck, Wednesday night, a house in Bridgeport, Conn., in which there were thirteen persons, all of whom were knocked senseless, but who all quickly recovered. In this case thirteen does not seem to have been an unlucky number.

Pennsylvannia's legislature has appropriated $1,000,000 more than the New York legislature. Such extravagance would not have been dreamed of had it not been that the Republican majority in that State reached the 200,000 mark, and with that margain between it and defeat Republican recklessness and extravagance knew no restraint.

The *Herald* publishes, this morning, reports of the earnings of nine railroads and with one exception they all show very material gains on the earnings for the corresponding period, last year. Railroad earnings are a sure test of business conditions and the prosperity of the railroads means that the whole country is prospering.

The *Iron Age* says that reports from all the leading iron centres record either actual advances or a rising tendency. In Southern pig there has been another advance of twenty-five cents a ton, making seventy-five cents advance from the lowest figures. The iron and steel trades everywhere are in a satisfactory condition and everything points to permanent activity.

Bradstreet's publishes the result of inquiries as to increases of wages, in seventy-five cities east of the Rocky Mountains, which show that since April 1st 178,000 employes, in different industries, have been granted advances. The reports also show that since April 1st work has been resumed in 227 industrial plants, which had been closed, giving employment to 53,400 hands who had been in enforced idleness.

Large shipments of frozen milk are made daily from Sweden and Denmark to England. After being sterilized, the milk is frozen by ammonia and the barrels which contain it are packed in sawdust for shipment. Many thousands of gallons of frozen cream are also shipped from the countries named to England. The frozen milk and cream are said to arrive in perfect condition and frozen milk has been kept a month without any deterioration in quality. The first shipment was made about a year ago and the venture was so successful that there has been a wonderful development of the business.

The wedding of Florence Adele Sloane, a granddaughter of the late William H. Vanderbilt, to James A. Burden, Jr, at Lenox, Mass., yesterday, is estimated to have cost over $100,000 and was the most elaborately gorgeous and sumptuously elegant affair of the kind ever attempted in this country. If the aim of the Sloane family was to cast the Gould-Castellane wedding completely in the shade they must have rested, last night, happy in the consciousness that they succeeded perfectly in their laudable undertaking. The bride's gown of white satin was perfectly plain but her bridal veil of rarest point lace cost a fortune. The bridal gifts, mostly jewels, are estimated to have cost not less than $700,000. In view of which the $100,000 spent upon the wedding doesn't seem to have been such a bad investment; it isn't every venture that yields a sevenfold return.

Nervousness

Is only another name for impure blood, for no person is weak and nervous whose blood is perfectly pure.

When the blood is full of the germs of disease, and lacking in the red corpuscles which give it vitality, when it fails to properly nourish the organs and tissues of the body, what can you expect but that tired feeling and nervousness?

Of course Scrofula, Salt Rheum, Catarrh and Rheumatism are universally recognized as blood diseases, for which Hood's Sarsaparilla, as the best blood purifier, is everywhere acknowled the greatest remedy.

Therefore, as Hood's Sarsaparilla cures all blood diseases, it is the best remedy for that condition of the blood which causes Nervousness.

It is a false idea to think you are curing your nervousness when you are taking a preparation which only *quiets* your nerves! It is like trying to "drown" your sorrows in the flowing bowl. They are *sure to return*.

We wish to make most impressive, then, this truism:

You cannot purify your blood by DEADENING or QUIETING your nerves with opiate, narcotic or nerve compounds. If you take such articles you are only TRIFLING with your troubles. There is SURE to be a REACTION which will leave you worse than you were before.

Why not then, take the true course, follow the bee-line to the state of health, purify your blood and cure your Nervousness by taking

HOOD'S Sarsaparilla

THE POST OFFICE ROBBERS.

Their Case Adjourned Till Monday—Attempt to Bribe a Keeper.

BY UNITED PRESS.

NEW YORK, June 7.—The prisoners, Kiloran, Allen and Russel charged with robbing post offices are arriagned this morning and the hearing adjourned till Monday. It has been learned that Kiloran offered a keeper in Ludlow street jail $1,500 to help him escape.

Nervous People.

And those who are all tired out and have that tired feeling or sick headache can be relieved of all these symptoms by taking Hood's Sarsaparilla, which gives nerve, mental and bodily strength and thoroughly purifies the blood. It also creates a good appetite, cures indigestion, heartburn and dyspepsia.

Hood's Pills are easy to take, easy in action and sure in effect. 25c.

THE HYGIENE OF THE MOUTH

In a recent lecture before the Wistar Biological Association, entitled "The Bacterio-Pathology of the mouth, and its significance in its relation to general diseases' Prof W D. Miller, of Berlin, stated that thirty two distinct species of germs has been found in the mouth and that these germs give rise to various diseases.

"Want of space" prevents us from giving Prof. Miller's lecture in full, but the practical deduction is that increased care should be devoted to keeping the mouth perfectly healthy This will be one of the features of "preventive medicine" the dawn of which is evidently approaching The logical course for those who attach importance to such things is to use our Ivory Tooth Wash frequently and liberally It is antiseptic, purifying and cleansing in its effect, very pleasant to use and leaves a clean taste in the mouth, whitens the teeth and sweetens the breath. We make it and we vouch for it as an article of merit. 25 cents a bottle.

RELIGIOUS CANVASS OF THE CITY.

Churches Unite in a Movement to Secure Information as a Basis for Missionary Effort.

The movement started some time since to secure, by united action on the part of the churches, a complete religious canvass of the city, has taken definite shape, the necessary organization has been effected and it is expected that the work will be begun about June 15th.

The churches interested are the First and Second Presbyterian, First and North Street Congregational, Methodist, Baptist and North End Mission. Each church has appointed a superintendent and twelve visitors, the latter being ladies, who, under the direction of the superintendent, will make a house to house canvass. The arrangement is that the visitors shall work in pairs, and to insure absolute non-sectarianism in the work the visitors who work together are not to be from the same church.

The city has been divided into six districts, the North Street Church and North End Mission being grouped together. Each district will be in charge of a superintendent.

The visitors, as they go from house to house, will ask sixteen questions concerning each person between the ages of five and twenty-one years, and sixteen questions concerning those over twenty-one. Special care will be taken to ascertain the denominational preferences of those not attached to any church, and the information obtained by the canvassers, when tabulated and arranged, is expected to furnish a very useful basis for missionary work by the pastors of the different churches.

A meeting of the superintendents and visitors will be held in the First Congregational Church, Monday evening next, at 7:30 o'clock.

THE FUTURE OF SUSQUEHANNA.

A Big Stock Jobbing Operation On—Is the D. and H. Seeking Control of the Property?

Susquehanna and Western preferred and common stock suffered another serious break, this morning, the preferred touching 21 and the common 7¼. Later, the preferred rallied to 24 and the common to 8⅓ Evidently, as the ARGUS remarked the other day, a great stock jobbing operation is in progress in Susquehanna and Western.

Since the completion of the Wilkesbarre and Eastern extension and the Union Hill tunnel, which make the road another link between the coal mines and tidewater, there has been a steady and persistent drive in Wall street at the company's credit. Putting this and that together it looks as if there was more substance than rumor in the talk that Delaware and Hudson is reaching out its hands to control Susquehanna.

Monhagen's Gift to Crystals.

The presentation will be made on the twenty-second anniversary of the organization of Crystals.

OBITUARY.

Rainsford Ingalls.

The friends in this city of Mr. Rainsford Ingalls, of New York, will be pained to learn that he died at his home in that city, yesterday, of kidney trouble, from which he had suffered for some time.

Mr. Ingalls was about fifty-eight years old. He is survived by his wife, who is a sister of Mrs. Henry Scharf, of this city.

Mr. Ingalls was a frequent visitor here, and had many warm friends in our city.

The funeral will take place tomorrow, and the burial will be in Woodlawn.

Mrs. Mary R. Vail.

Mrs Mary R. Vail, widow of the late William B. Vail, died in Montgomery, Tuesday, aged eighty-four years. The cause of death was an attack of grip, from which her great age prevented her recovery. She was for many years a member of the Hamptonburgh Presbyterian Church, a faithful mother and a good woman in every sense of the word. She is survived by six children, one of whom is Mrs. George W. Clark, of this city. She was buried, yesterday, in the Brick Church cemetery.

THE APPROPRIATION ELECTION.

The Several Items Which the Taxpayers are Asked to Vote Upon.

As this Republican Common Council desires only readers of Republican newspapers to be kept posted in regard to official business and has violated the spirit of the charter by designating two papers of the same political party to do the official advertising, the ARGUS will try to keep its readers posted. We will publish free every day from now until the appropriation election, on June 12th, the following list of appropriations upon which the taxpayers have the right to vote:

Permanent Street Improvement	$7,500
Thral Hospital	1,250
New truck for Excelsior H. and L. Co.	1 800
Winding town clock (without striking)	100
Annual fire department parade	700
Gen Lyon Post G. A. R.	50
Capt Jack on Post, G. A. R.	50

Port Jervis's Light Tax Levy.

Stumbled Over a Dog and Fell Down Stairs.

Mrs. John Bader, of No. 80 South street, is suffering severely from the effects of injuries sustained in falling down stairs, at her home, Wednesday night. Mrs. Bader had started to descend the stairs in the dark, from her apartments on the second floor, and stumbled over a dog which was asleep on one of the steps. She fell headforemost to the bottom of the flight, but fortunately no bones were broken.

How a Boy's Life Was Saved.

Willie Peak, the Long Eddy boy, who was bitten by a rattlesnake is out of danger. His father sucked the poision from the wound, a doctor who was called injected permanganate of potash and John Geer, the rattlesnake catcher, applied his Indian snake bite remedy. Opinion is divided as to whether the father, the doctor or the rattlesnake catcher is entitled to credit for saving the boy's life.

Artists on the "Raging Canawl"

From the Honesdale Citizen.

The Kit Kat Club, of New York city, comprising twenty-five artists, has chartered a D. and H. canal boat for the purpose of making a trip from Eddyville to Port Jervis and probably to Honesdale, occupying about two week's time, Stops will be made at all attractive spots along the line to enable sketches to be made. The boat is handsomely fitted up.

Gen DeWitt Camp's Dance at Midway

A large crowd of young people attended the dance given by DeWitt Camp Sons of Veterans, at Midway Park, last evening. The dancing platform was crowded during the afternoon and evening, but the receipts, at five cents per dance, were not sufficient to pay all expenses. The platform is not large enough to conduct dances on that basis and make money.

Taken to Mountain Dale for Burial

Mr. W. N. Knapp went to Mountain Dale, this morning, in charge of the remains of Mrs. Louisa A. Roberts, formerly of Centerville Station, who died in this city, Tuesday. The funeral and interment will be at Mountain Dale.

Changes in Time of Trains to Take Effect Next Sunday.

The ARGUS, some time ago, published a list of the changes in the Erie time table, to take effect next Sunday. At that time the official time card had not been issued, but the figures then given were correct. We repeat them, to-day, however, so that none of our readers may make any mistakes, as there are several important changes:

GOING WEST.

No. 17, milk train, arrives at 7:23 instead of 7:47 a. m, as heretofore.

No. 1 will arrive at 11 a. m., and will stop only on signal for passengers for Binghamton and points west.

No. 9 is a new train that will run on the old time and make the stops of No. 1, arriving here at 11:25 a. m.

No. 7 will arrive at 9 p. m., instead of 8:30, as heretofore.

GOING EAST.

No. 38, the Scranton express, will leave here at 10:48 a. m., instead of 10:31.

No. 30 will leave at 4.13, instead of 4:43 p. m.

No. 2 will leave at 5:08, instead of 2:53 p. m.

No. 22 is a new train, which will leave here at 7.27 p. m., and will connect with the Newburgh train.

The milk train will leave at 8:12, instead of 7:53 p. m.

SUNDAY TRAINS.

Going west, No 1 will run on its regular time, but will make the same stops as No. 9, which will not run on Sundays.

The Sunday special will arrive at 10:29, instead of 9:42, as formerly.

Going east, the Sunday special will leave here at 5:25, or ten minutes later than heretofore.

On Sundays the milk train will make connection for Newburgh at Turners.

CRAWFORD BRANCH.

The only change in the Crawford train, on week days, is the arrival in this city at 8:10 a. m., instead of 8:15, as heretofore. On Sundays the train will leave Main street for Pine Bush, at 11:10 a. m.

Special Rates to Endeavorers' Convention at Monroe.

'TIS STRAW HAT TIME

NOW MEN SHED THEIR DERBIES AND THEIR PLUGS.

This Year the Styles Are About the Same as Last Year and the Year Before That. Variety In Straw Hats Desirable, but Not Feasible.

This is the time of year when the young man's fancy—and the old man's too, for that matter—lightly turns to thoughts of hats of straw.

This is true whether you live east or west. If you live far enough south you are likely to wear straw hats the year round, but no matter how far north you may be—that is, in the United States and contiguous parts of the Dominion of Canada, which make up the world so far as this article is concerned—you

PANAMA HAT AND ACCOMPANIMENTS.

will get rid of your winter chapeau somewhere about the first of June and thank heaven the summer has come. But there are straw hats and straw hats, besides Panama and chip hats, which are not straw hats at all, though belonging to the same genus. Time was when the Panama hat, with its graceful, curving broad brim and its sometimes rounded crown, was the swell summer hat par excellence in every part of the land, but that time has passed. When the Panama hat was worn by the dwellers on Uncle Sam's farm, the men who wore them were wont also to wear their hair long, well oiled and perfumed and to support ambrosial Dundreary whiskers and linen coats. Paper collars were worn, too, then, not perhaps by the real swells, but by a grade of men who would not dream of wearing anything but linen neck circlets nowadays. The fashions in neckwear, too, were then such as would horrify most men now. I cannot speak exhaustively upon them, but there was one knot much affected 30 or 40 years ago in the inland cities of the east, and not unknown in the west, that worn in connection with a Panama hat, paper collar, long hair, linen coat and Dundrearies of the same period would do what few other costumes could do, in New York, for instance.

In New York, as the ingenious special writers of that interesting town are fond of asserting, a man might walk up Broadway clad in a scarlet jacket and knee breeches, one leg of which might be red and the other yellow, without attracting any special comment. In fact, there could hardly be devised a dress for man, and scarcely one for woman, that would create much of a sensation on New York's busy main thoroughfares, and the same is measurably true of Chicago, but I am sure that if a man should walk up Broadway wearing a Panama hat of the vintage of 1860, with all its accompaniments, half the people he would meet on the sidewalks would turn and stare at him. But the Panama hat is not banished entirely. There are places where it is yet to be found in all its old time glory. Havana is one of these, I understand, but in most American towns, especially New York, Boston and Philadelphia, whose men assume to be the only ones in America who dress and hat themselves correctly, the Panama hat's name is Dennis, and no mistake.

For some years in those and most other cities but one style of straw hat has been worn. There have been slight variations, of course, but the chief features have been changeless. The straw hats of today have stiff brims and rather low crowns. Some brims have been wider than others, there have been some slight deviations from the one type in the crowns, some brims have been smooth on the edge, and some have been toothed like a buzzsaw, some hats are made of fine narrow braids pressed flat and covered with some varnishlike substance, while others are made of coarser braids, so sewed as to show each braid with distinctness, and sometimes straw hats have been worn with fantastic openwork in the crowns, but comparatively low crowns and stiff brims have been the rule for years.

AN UPRISING ON BROADWAY.

All this sameness is not due to the hatters either. They have sometimes introduced other styles, for they realize

to wear a sack coat he was decidedly out of it, the high hat being properly worn only with a frock.

This holds good even now in New York, and the seasoned New Yorker has a very decided opinion of the man who wears a sack coat and a plug hat. There are some in New York who are desirous of introducing the London rule that any one who is anybody shall wear both a long coat and a high hat, but it is not likely that they will ever succeed. New York is a far more cosmopolitan town than London in some respects, I'm told, and while you may bind a great many men of one nationality by iron rules of dress you cannot well regulate the hats and coats of a city full of men from every civilized country and some uncivilized ones.

The hatters say that soft hats have gone out again now, and that no one will wear anything but stiff hats next winter. I doubt the correctness of their predictions, for the New Yorker—he who has to ride on elevated or suburban trains especially—has now found out what a nuisance a stiff hat brim is by contrast with the soft one, particularly when the wearer is going home early in the morning, and falling asleep leans his head against the seat back. At such times the stiff hat is a delusion and a snare, by reason of its tendency to tip over the eyes and fall off, while the soft hat curls up comfortably, forming a sort of pillow, which adds greatly to the pleasure of "forty winks." The soft hat has another decided advantage over the stiff one, in that it does not break under hard usage as the derby does, but after being sat upon even may be made to look quite presentable again by one or two deft pattings.

Of the great civilized cities outside of America, Paris is perhaps the most tolerant in respect of hats, being quite as much so as Chicago. To my notion Paris is very sensible in this matter, and I should be glad if men who live in cities were less conventional generally in their attire. As it is they are apt to look as like as peas, and individuality of dress seems quite to have disappeared.

A False Diagnosis.

La Grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former. These individuals suffer severely with pain about the head, eyes and ears, with soreness in throat and stoppage of the nasal passages, and in fact, are incapacitated for work of any kind for days at a time. These are catarrhal sufferers. Ely's Cream Balm has been used with the best results in such cases. The remedy will give instant relief.

AYER'S SARSAPARILLA The only Admitted at the WORLD'S FAIR CHICAGO 1893

Why Was It

that Ayer's Sarsaparilla, out of the great number of similar preparations manufactured throughout the world, was the only medicine of the kind admitted at the World's Fair, Chicago? And why was it that, in spite of the united efforts of the manufacturers of other preparations, the decision of the World's Fair Directors was not reversed?

BECAUSE

According to RULE 15—"Articles that are in any way dangerous or offensive, also patent medicines, nostrums, and empirical preparations, whose ingredients are concealed, will not be admitted to the Exposition," and, therefore—

Because Ayer's Sarsaparilla is not a patent medicine, not a nostrum, and not a secret preparation.

Because its proprietors had nothing to conceal when questioned as to the formula from which it is compounded.

Because it is all that it is claimed to be—a Compound Concentrated Extract of Sarsaparilla, and in every sense, worthy the indorsement of this most important committee, called together for passing upon the manufactured products of the entire world.

is injurious, but nothing gives strength, and tones up the stomach like a pure old port wine. "Royal Ruby Port," so called for its royal taste and ruby color, is on account of its purity, age and strength, particularly adapted for invalids, convalescents and the aged. Sold only in bottles (never in bulk) while cheap wine is sold by the gallon and gives a larger profit to the seller but less to the user. This wine is absolutely pure, and has the age without which no wine is fit to use. Be sure you get "Royal Ruby"; quart bottles $1, pints 60 cts. Sold by

"Castoria is the best remedy for children of which I am acquainted. DON'T STOP TOBACCO

It is Injurious To Stop Suddenly

And don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of the use of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about **"BACO-CURO."** It is purely vegetable. You do not have to stop using tobacco with **"BACO-CURO."** It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An ironclad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded.

Dear Sirs—I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco or the time being at least. I tried the so-called 'Keeley Cure," "No-To-Bac," and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago to-day I commenced using your preparation, and to-day I consider myself completely cured. I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it.
Yours very truly, C. W. HORNICK.

Dear Sirs—I have been a tobacco fiend for thirty-three years and during the past two years have used chewing tobacco very extensively. My nervous system was affected considerable. I have often tried to give up the use of tobacco, but always failed until I bought three boxes of your "Baco-Curo." I used tobacco at the same time while taking "Baco-Curo," and after a week I lost the appetite for tobacco—smoking or chewing. I am enjoying better health, and consider your "Baco-Curo" the safest, most harmless and reliable remedy for to break the tobacco habit.
Yours truly, JOHN RODDEN,

Gentlemen—Last summer I furnished Mr James Reid, of the town of Burnside, Trempealeau Co., with three boxes of your "Baco-Curo." He had chewed tobacco for over forty years and the last year used over sixty-five pounds. He commenced using "Baco-Curo" and one box did not have the effect, when he had used about one-half of the second box he began to lose his taste for tobacco, and when he had used one-half of the third box he had lost all his appetite for it, and is now entirely cured.
Yours truly, J. C. TAYLOR, Druggist.

TO WHOM IT MAY CONCERN.

This is to certify that I, William S. Sawyer of Atlantic County of Cass, state of Iowa, having been an inveterate smoker of tobacco, bought three boxes of "Baco-Curo" Dec. 21, 1894. Began taking same according to directions and can say that I am completely cured of the tobacco habit "Baco-Curo" is simply wonderful and I recommend it to all who are slaves to the tobacco habit and wish to be cured. I am in perfect health and have not felt so well in years. That terrible craving, which every tobacco user has more or less, has completely disappeared and I feel like a new man. Hoping that this may do some one good and lead them to try this wonderful remedy, "Baco-Curo," I remain, Yours truly,
WM. S. SAWYER, Atlantic, Iowa.

Gentlemen—For forty years I used tobacco in all its forms. For twenty-five years of that time I was a great sufferer from general debility and heart disease. For fifteen years I tried to quit, but couldn't. I took various remedies, among others "No-To-Bac," "The Indian Tobacco Antidote," "Double Chloride of Gold," etc., etc., but none of them did me the least bit of good. Finally, however I purchased a box of your "Baco-Curo" and it has entirely cured me of the habit in all its forms, and I have increased thirty pounds in weight and am relieved from all the numerous aches and pains of body and mind. I could write a quire of paper upon my changed feelings and condition.
Yours respectfully, P. H. MARBURY,

WHAT MR. KRAEMER SAYS OF "BACO-CURO."

ATLANTIC, Iowa, Feb. 4, 1895.

This is to certify that I. F. D. Kraemer, of Atlantic, Iowa, was an inveterate smoker of cigarettes for more than two years.

About eight weeks ago I bought three boxes of "Baco-Curo" I began taking it according to directions, and after taking one and one-half boxes, all the desire for cigarettes left me, and I have had no desire since.

I can heartily recommend "Baco-Curo" to all who are slaves to the cigarette habit or tobacco habit in any form, and are in search of a cure. I had become so under the influence of cigarettes, I could not remember anything; could not study, unless under the influence of the drug, which is death in the end, if kept up.

Cigarettes are sapping the lives out of more boys and young men to-day, than anything that is known to the world. Boys, before it is too late get some of this remedy that killed the craving for cigarettes in me and save your young life. Restore yourself to manhood. You will feel as though you had escaped an awful doom, and you have, when cured by "Baco-Curo," for you feel like a new being. I never felt better in all my life than at this present writing. I did not know what was the matter with me, until informed by the agent. He told me what was the reason I could not do anything unless under the influence of the death-dealing poison found in cigarettes. I did not believe him at first, until he explained the action on the system. Then I bought the goods and thank God and all concerned. I am a sound person to-day. Hoping that this may reach the unfortunate cigarette smoker, I remain, Yours respectfully,
F. D. KRAEMER.

THE COMMON COUNCIL.

PROCEEDINGS OF THE REGULAR MEETING LAST NIGHT.

The New Telephone Company Asks for a Franchise—Restrictions as to Setting Poles—Orders for Grading, Curbing, Paving, Flagging, Etc.—The Extension of Highland Avenue.

A regular meeting of the Common Council was held last evening, present Messrs. Bowler, Bastian, Hirst, Funnell and Reed.

Mr. Reed was elected President pro tem.

ASKED FOR A FRANCHISE.

Ex-Mayor Iseman addressed the Council in behalf of the Orange County Telephone Company. He spoke of the need of telephone service at reasonable rates; a company had been organized and incorporated to furnish such service. Its stock consisted of 100 shares at $100 each, and no person is permitted to own more than three shares. It is not intended as a dividend paying concern, but to give service at lowest possible cost.

He asked that the company be given permission to erect poles and string wires through the streets within the city limits.

He said if the permission was granted the line would be in operation within two months.

PRESIDENT WILBUR'S REMARKS.

Mr. A. B. Wilbur, the President of the company, also addressed the Council upon the same subject. He emphasized the fact that while in most places a few persons held all the stock, here the stock was distributed among as many as possible. If the franchise is granted the service will be opened with over 200 phones, and possibly 300.

Dr. T. D. Mills said that while it had been stated that the number of shares had been limited to three no one held more than two shares.

He also spoke of the intention of connecting with neighboring places and with short lines in other localities.

Ex Alderman Crans said he had brought a petition from residents of Chestnut street asking for a grade. The street had been used for many years and accepted by the city, and the people are entitled to the improvement asked for.

OBJECTED TO THE SIZE OF THE BILL.

Mr. C. H. Robbins said he had received a bill from the City Attorney that he considered unjust. About two years ago a fill had been ordered on Monhagen avenue, but he was unable to do it and the city did the work, but at a cost of $60, much greater than necessary, in order to take the dirt from a place where grading was needed. He had given to the city several times as much dirt free of charge when the street was macadamized. He asked that the bill be discounted one half.

Mr. Funnell moved that the permission asked by the Telephone Company to erect poles and string wires be granted.

Mr. Iseman said he thought a regular franchise should be granted.

RESTRICTIONS ON THE ERECTION OF POLES.

Mr. Bastian wanted to speak and Chairman Reed wanted to rush the matter through by putting the question. Mr. Bastian, however, persisted and said that there should be some restriction about the erection of poles. With telephone, electric light, electric railway, fire alarm and telegraph poles there were enough poles now in many places. There should be no more poles erected than actually necessary.

Mr. Iseman said he had three poles in front of his house and did not find them objectionable.

WOULD HAVE ALL THE POLES HE WANTED

Mr. Bastian said if Mr. Iseman liked poles in front of his house he should have them, but everybody didn't like them and while other cities were getting rid of poles Middletown wanted to add more.

Mr. Hirst moved an amendment that the poles be erected under the direction of the Street Committee.

Mr. Funnell accepted Mr. Hirst's amendment and the permission asked for was granted.

GRADES, CURBS AND WALKS ORDERED.

On motion of Mr. Funnell the City Engineer was directed to establish a grade on Ogden street from Rowan street to Albert street.

Mr. Hirst wanted the matter referred to the Street Committee, but other members wouldn't have it.

Mr. Funnell moved that the curb be reset and gutter paved on Montgomery street from the Erie railroad to Roberts street. Referred to the Street Committee.

Mr. Funnell moved that the sewer on Cottage street be extended to Wisner avenue. Referred to Sewer Committee.

Mr. Bowler moved that flags be laid and curb set on both sides of Hanford street from the Morse property to West Main street. Carried.

TREES TO BE TRIMMED

Mr. Bowler moved that the Street Superintendent trim the trees on Railroad street from Mill street to beyond Academy avenue, and at the request of Mr. Reed, made the motion apply to the whole city where necessary.

Mr. Hirst called attention to the crosswalks on James street, near Erie depot, and said there were others needing repairs and moved that the Street Superintendent be directed to make them.

Mr. Bowler thought the Street Committee ought to have the authority to order such work done without action of Council. Mr. Hirst's motion prevailed.

Mr. Funnell moved that curb be reset and gutters paved where necessary on West Main street between South and Canal streets.

THE EXTENSION OF HIGHLAND AVENUE

Mr. Hirst, from the committee on the extension of Highland avenue, said Mr. Miller had consented to allow the city to put dirt on the street, but he would not spend any money himself.

Mr. Miller said inasmuch as he intended to change the street it was not worth while to spend any money on it. "After haying," he said, he intended to open a new street.

Mr. Hirst said people of the town of Wallkill were willing to co-operate with the city in keeping open the street as at present located.

Mr. Miller said he proposed to move the street 200 feet further south and it would not interfere with the people of Wallkill.

On motion of Mr. Funnell it was ordered that Chestnut street be graded and curbed on both sides.

On motion of Mr. Funnell, J. J. Cox, C. B. Hulse and I. B. A. Taylor were appointed inspectors of the appropriation election at a salary of $3 per day.

Mr. Bowler was appointed the inspector for the Council at the Fire Department election.

A petition for the extension of the Wickham avenue sewer to Albert street, was, on Mr. Hirst's motion, referred to the Sewer Committee.

A request from A. S. Cassidy for payment of bill as commissioner in the Ogden street matter, was laid over until next meeting.

A report of Chief Engineer Thorpe was read and, on motion of Mr. Hirst, was accepted.

Mr. Herring, representing the naphtha Company, stated that he could not submit a bid at less than $22 per lamp for naphtha light at present prices of oil, but that if the price is reduced his company would be willing to give the city the benefit.

Mr. Bowler offered a resolution which was adopted, awarding the contract at $22 per lamp, providing a clause is inserted in the contract to give the city the benefit if a reduction in the price of oil is made.

On motion of Mr. Funnell the Durie claim for damages to a horse, which was referred to the City Attorney, at the last meeting, was taken from his hands and referred to the Auditing Committee.

On motion of Mr. Bowler two fire alarm boxes were ordered, one to be placed on North street, near the Erie track, and the other on East Main street, near Prospect avenue.

The Clerk was authorized to call a special meeting, Monday evening, June 10th.

A map of Mills avenue was presented by the City Engineer and on motion of Mr. Bowler was approved.

ICY SIDEWALK DAMAGE SUITS.

Some Thoughts Concerning Them Suggested by a suit Against Port Jervis.

The bringing of an action, Tuesday, for $10,000 damages against the village of Port Jervis for injuries alleged to have been sustained by a fall on an icy sidewalk, in December last, suggests a thought that has often occurred to the writer when suits for damages have been brought against our own city. It is this: Why is it that in nearly every case of this kind, nothing is ever heard of even an intention to bring suits for damages until the summer sun has had a chance to melt away the ice, and sufficient time has elapsed for everybody except the party who brings the suit to forget all about the condition of a certain piece of sidewalk on a certain date, several months previous?

There are few, if any, instances in which a person is entitled to damages, that suit could not be commenced at once, when, if there was a clear case, it could easily be proven, and if not the corporation would have a fair chance to defend itself.

A suit for damages, brought after everybody has forgotten all about the circumstances, alleged to have caused injuries for which damages are claimed, is open to suspicion, to say the least, and with the disposition of the average juryman to render a verdict against a corporation, the courts should sit down upon all such suits, unless it is clearly shown that action could not be commenced within a reasonable time.

A CHANCE TO MAKE MONEY!

The times are hard, but here is a good show. In the last month I have made $175 selling Climax Dish Washers. I never saw anything take like they do. When any women see me wash the dinner dishes, clean and dry them in one minute, they buy one right away. Anyone can make $6 a day right at home easy. I have not canvassed, so anxious are the people for the Climax they send for them. Write to the Climax Mfg. Co., Columbus, Ohio, and they will send you circulars. It is easy selling what every body wants to buy. I will make $3,000 this year easy.
